It’s unwise to pay too much, but worse to pay too little. When you pay too much, you lose a little money—that is all. When you pay too little, you sometimes lose everything. Because the thing that you bought was incapable of doing the thing it was bought to do. The common law of business balance prohibits paying a little and getting a lot—it can’t be done. If you deal with the lowest bidder, it is well to add something for the risk you run. If you do that you will not have enough to pay for something better.

John Ruskin
(1819-1900)
Dear Customer:

Enclosed, is a catalog illustrating some of our many design variations and capabilities of our custom lighting manufacturing facilities. A great many of our units shown are interchangeable and can be made in many more combinations than would be possible to illustrate.

Should you require a special design, send us your scale drawing, photograph or sketch, and specifications. We would be pleased to furnish suggestions on how to meet your requirements. Herwig has a large number of special patterns not illustrated in our catalog, which were once custom designs on other projects.

All standard Herwig products are custom manufactured to your specifications. Because of the many variations available, we do not publish a price sheet.

If you have any questions as to custom designs and / or budget estimates, please feel free to call us on our toll free number 1-800-643-9523.

Cordially,
Donald F. Wynn
President

Herwig Lighting Fixtures
